SG 02	.4 Additional information [Optional].
ITI	ton formally adopted a RI Policy on 3rd May 2012. The key aims of the policy are:

- to ensure it is a fundamental part of the investment decision making process and that all Triton and West Park personnel are fully trained and cognisant of the policy;
- to reduce risk and enhance value in investment portfolios through focused and consistent consideration and management of ESG issues;
- $\bullet \ \ \text{to identify and manage ESG issues throughout the investment cycle: pre-investment, during ownership and at exit;}\\$

- to implement effective governance structures, training programmes and communication procedures at the fund and portfolio company levels;
- to strive for continuous improvement in relation to ESG issues; and
- to communicate to the public, Triton's focus on ESG and build that into the firm's reputation.

Funds managed by TIML strive for the successful development of the businesses that they invest with and to be prudent stewards of investors' capital. The RI policy was written and implemented in 2012 and was last reviewed in 2017 but not updated. The policy will continue to be reviewed on an annual basis going forward.

Triton's RI strategy has 4 pillars as below.

- 1. Sensitise / train all relevant personnel. Triton implemented the training programme in 2013 and will continue to schedule mandatory ESG training sessions for all relevant Triton and West Park employees.
- 2. To ensure the consideration of ESG aspects throughout the due diligence process for prospective investment opportunities.
- 3. To work directly with portfolio companies in implementing the RI Policy and co-ordinating reporting on ESG performance. The ESG programme has been fully rolled out to all portfolio companies with the exception of those most recently acquired where integration is ongoing as part of the 100-day plan.
- 4. Benchmark and report on Triton ESG performance, using both public information (including, but not only, from United Nations Principles for Responsible Investing ("UN PRI")) and information from investee companies. Triton has filed publicly available UN PRI Transparency Reports since 2014 to increase transparency and facilitate efficient benchmarking. Portfolio companies started formal ESG reporting to Triton in Q1 2016.

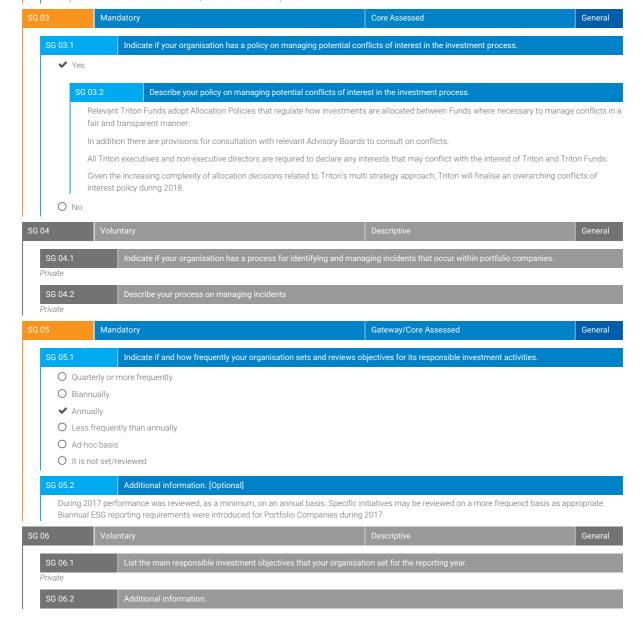

Responsible investing is, in its formal sense, a relatively recent development for the private equity industry as a whole and the firm's approach is continuously improved and developed. For example, Triton has recently updated the new joiner induction training programme to include a discussion of Triton's approach to responsible investment, ESG programme and compliance.

RI (or as we prefer to call it, "investing responsibly") is an agenda item at Advisory Board meetings of the Triton Funds where a Risk Report is presented and discussed.

The RI Policy of Triton and TAS was developed in alignment with the requirements of the UN Global Compact's ten principles in the areas of human rights, labour, the environment and anti-corruption, the Universal Declaration of Human Rights of the United Nations as well as the OECD guidelines for Multinational Enterprises.

The relevant General Partner Boards are responsible for our commitment to being responsible investors and have delegated this responsibility to TIML who has delegated this to the CFO/COO. Given the importance of the GP Boards and TIML training and updates are provided on a regular basis.

Responsibility for day to day implementation of the Responsible Investment (RI) strategy has been delegated to the Head of ESG, who joined in 2013 and is fully dedicated to Triton's ESG initiatives, and the Head of Compliance.

of any relevant ESG issues.

Private Mandatory Indicate whether your organisation's investment activities are guided by a responsible investment policy / follow responsible investment quidelines ✓ Our investment activities are guided by a responsible investment policy Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in Triton's overall RI strategy has 4 pillars 1. Sensitize / train all relevant Triton staff, (i.e. investment, risk, IR, purchasing etc.). We began training in 2013 and will continue ESG training sessions which are mandatory for all frontline Triton staff. This has been 100% implemented and is a focus to update again during 2018. 2. To work directly with Triton deal teams and advisers on all ESG aspects of due diligence on prospective investment opportunities. This has been 100% implemented. 3. To work directly with portfolio companies in implementing Triton's RI policy and co-ordinating reporting to Triton on ESG performance. The programme has been rolled out to all investee companies with the exception of those most recently acquired where integration is ongoing as part of the 100-day plan 4. Benchmark and report on Triton performance, using both public information (including, but not only, from United Nations Principles for Responsible Investment ("UN PRI") and information from portfolio companies. Triton has filed publicly available UN PRI Transparency reports since 2014 to increase transparency and facilitate effecient benchmarking. Portfolio companies started formal ESG reporting to Triton on their 2015 performance and are currently submitting their reports for 2017. O Our investment activities are not guided by a responsible investment policy O We do not have a responsible investment policy Core Assessed Indicate if your most recent fund placement documents (private placement memorandums (PPM) or similar) refer to responsible investment ✔ Yes Indicate how your most recent fund placement documents (PPM or similar) refer to the following responsible investment: Policy and commitment to responsible investment ☑ Approach to ESG issues in pre-investment processes ■ Approach to ESG issues in post-investment processes ✓ Approach to ESG reporting Describe how your organisation refers to responsible investment in fund placement documents (PPMs or similar). [Optional] The most recent Private Placement Memorandum (which summarises the investment strategy) clearly commits to responsible investment as summarised in our response to question PE01.1. Similar commitments have been made in due diligence Triton is engaging proactively with all of its portfolio companies and ensuring they are aligned with Triton's ESG Programme. Triton requests that each portfolio company is aligned with the requirements of Triton's ESG/Compliance Toolkit. This programme includes: · Triton's Portfolio Company Compliance Policy; · Triton's Portfolio Company Monitoring and Reporting Framework; · a requirement to complete Triton's ESG Self Assessment; and • a requirement to prepare an ESG Action Plan that is reviewed and approved by the Board. This process ensures that both Triton and its portfolio companies will have appropriate policies, programmes and ultimately KPIs to address the ESG risks and opportunities relevant to their business activities. O No O Not applicable as our organisation does not fundraise Indicate whether your organisation made formal commitments to responsible investment in the, Limited Partnership Agreement (LPA) of your most recent fund(s), or through side letters when requested by clients. PE 04.2 PRI 1 During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments. ✓ Yes Triton adopts a systematic approach, Triton's RI Policy requires each and every potential investment to be reviewed for ESG risks and opportunities. The scope of ESG Due Diligence could include but not be limited to:

- Environment Energy efficiency; Climate risk; Waste reduction; Recycling; Environmental impact; Site pollution; Sustainability.
- Society Community investment; Stakeholder dialogue; Inclusion; Public perception; Social mobility; Human rights compliance.
- Corporate Governance Code of ethics; Processes and procedures; Reporting; Transparency; Anti-corruption policy and practice; Stakeholder interests: Accountability: Data protection: Documentation retention.
- . Human Capital Staff turnover; Health & Safety; Training and Development; Absence rate; Performance management; Equality and diversity; Recruitment and retention.
- Customer Relations Customer satisfaction, retention and loyalty; Reputation; Trust; Quality of service and product; Competitive positioning.
- Innovation New product and process development; continuous improvement; Value of intellectual property; Investment in Research and

ESG Due Diligence ("DD") is initiated at the very beginning of the process with initial evaluation undertaken by the Deal Team and the ESG team on the ESG risks and opportunities within the industry and geographic sector. Publicly available information on the target company and any potential partners is also reviewed.

Following the initial screening, more detailed ESG assessment may be conducted which could include:

- company compliance and criminal checks using Worldcheck and/or RDC by Triton's Compliance team;
- · specific ESG company checks using Reprisk by Head of ESG
- application of Triton's ESG Index Rating System by Head of ESG where we grade ESG risks and opportunities;
- consideration of scope of local and national laws/regulations by ESG team;
- · detailed DD on ESG issues and target's performance;
- · assessment of LPA obligations by Head of Compliance; and
- · inclusion of ESG requirements in legal documentation such as draft SPAs.

Triton uses a range of internal and external specialists to provide more detailed due diligence support on ESG issues on a case by case basis dependent on the results of the initial internal ESG review. This can include formal legal, environmental and social DD where advisers have been instructed by the ESG team on ESG red flags.

In addition, if we have cause for concern (e.g. companies share no information on their negative impacts, they are in high risk sectors, they have little insight into their relative performance/peer benchmarks, adopt a hostile attitude to external stakeholders, a major corruption or other governance risk is identified or any other warning signs), we will undertake independent research. In "low concern" situations, this will be desk based research (e.g. media search, consultation with relevant civil society and regulatory organisations) where we either do in-house or may commission from a specialist ESG service provider. If we remain concerned, we may proceed to HQ visit, either by our ESG analyst or a specialist consultancy and in some situations, we may also commission site visits.

The ESG Team assesses supply chain risk on each investment opportunity and where appropriate will investigate matters further themselves or with

In 2015, Triton implemented a transaction checklist for all potential acquisitions that includes specific sections where sign off is required by the Heads

The in-house team works with the investment advisory teams in respect of its findings, and ESG risks or opportunities shall be incorporated into the investment recommendation and decision-making process. Where appropriate, the in-house team attends relevant investment recommendation meetings

O No

PRI 1,3 Indicate what type of ESG information your organisation typically considers during your private equity investment selection process. 🗹 Raw data from target company ■ Benchmarks against other companies ✓ Sector level data/benchmarks ☑ Country level data/benchmarks Reporting standards, industry codes and certifications ✓ International initiatives, declarations or standards **☑** Engagements with stakeholders (e.g. customers and suppliers) Advice from external resources Other, specify We do not track this information Describe how this information is reported to, considered and documented by the Investment Committee or similar. As part of the formalisation of its ESG programme. Triton has introduced a section into its decision-making papers that records the ESG assessment

conducted on potential investments.

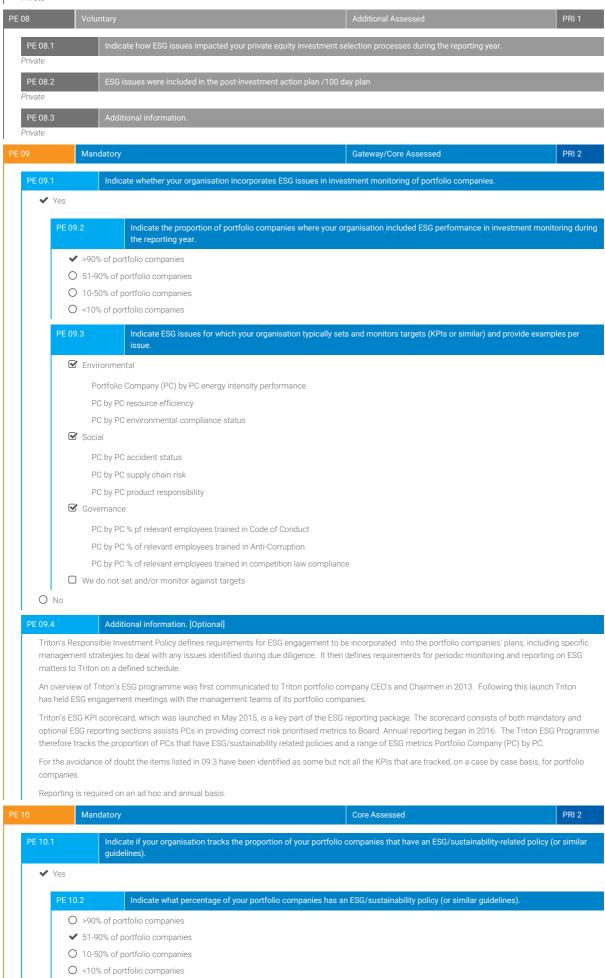

Triton evaluates each and every investment in a risk-based manner. The ESG information sources listed above are not therefore applied prescriptively on every investment but are examples of sources of information that will be referred to on a case by case basis.

ESG Due Diligence ("DD") is initiated at the very beginning of the process with initial evaluation undertaken by the Deal Team and the ESG team on the ESG risks and opportunities within the industry and geographic sector. Publicly available information on the target company and any potential partners is also reviewed.

Following the initial screening, more detailed ESG assessment may be conducted.

In 2015, Triton implemented a transaction checklist for all potential acquisitions that includes specific sections where sign off is required by the Heads of ESG and Compliance respectively.
